PRESENTATIONS GRADING RUBRIC - REVIEWER

Date:
Presenter:

Criterion	Max	Points
High-level overview of the paper Accurate account of the paper's claim and contribution	10	
Approach Critical assessment of methods, experiments, and whether the evidence supports the claims	20	
Strengths and Weaknesses Specific strengths, limitations, and constructive suggestions	15	
Final Verdict Complete responses to the requested review questions, including a justified overall score	15	
Overall effectiveness of slide text/visuals Good balance of text and figures	10	
Overall effectiveness of the presentation Good oral skills, ability to answer follow-on questions, good leading of the class discussions	15	
Time Effective usage of time (~14 minutes long)	5	
Preparation Discussing your slides with the instructor 1-2 days before the class and handing in the presentation a night before	10	
	TOTAL	

PRESENTATIONS GRADING RUBRIC - ARCHEOLOGIST

Date:
Presenter:

Criterion	Max	Points
Prior Work Well chosen prior paper and convincing evidence that it influenced the focal paper	15	
Prior Work's Influence Clear explanation of what the focal paper borrowed, changed, or challenged	15	
Follow-up Work Well chosen newer citing paper and an accurate account of its relationship to the focal paper	10	
Synthesis of Ideas Insightful synthesis of how the research direction developed across the three papers	20	
Overall effectiveness of slide text/visuals Good balance of text and figures	10	
Overall effectiveness of the presentation Good oral skills, ability to answer follow-on questions, good leading of the class discussions	15	
Time Effective usage of time (~14 minutes long)	5	
Preparation Discussing your slides with the instructor 1-2 days before the class and handing in the presentation a night before	10	
	TOTAL	

PRESENTATIONS GRADING RUBRIC - RESEARCHER

Date:
Presenter:

Criterion	Max	Points
Project Idea The proposed project genuinely depends on the focal paper's contribution and success	20	
Research Question Original, specific research question	15	
Implementation and Evaluation Credible method and experiments that could test the idea	15	
Plausibility Awareness of likely difficulties, alternative outcomes, and limitations	10	
Overall effectiveness of slide text/visuals Good balance of text and figures	10	
Overall effectiveness of the presentation Good oral skills, ability to answer follow-on questions, good leading of the class discussions	15	
Time Effective usage of time (~14 minutes long)	5	
Preparation Discussing your slides with the instructor 1-2 days before the class and handing in the presentation a night before	10	
	TOTAL	

PRESENTATIONS GRADING RUBRIC - HACKER

Date:
Presenter:

Criterion	Max	Points
Implementation Details Accurate connection between the paper's method and its implementation	15	
Walkthrough Clear, focused code walkthrough or demonstration	20	
Small Experiment A useful small experiment, diagnostic, or modification	15	
Insights Practical limitations and insights from working with the code	10	
Overall effectiveness of slide text/visuals Good balance of text and figures	10	
Overall effectiveness of the presentation Good oral skills, ability to answer follow-on questions, good leading of the class discussions	15	
Time Effective usage of time (~14 minutes long)	5	
Preparation Discussing your slides with the instructor 1-2 days before the class and handing in the presentation a night before	10	
	TOTAL	

PRESENTATIONS GRADING RUBRIC - PRIVATE INVESTIGATOR

Date:
Presenter:

Criterion	Max	Points
Author Background Accurate account of the author's education, research areas, and work history	15	
Related Early Work Specific earlier projects or papers that help explain their path to the focal paper	20	
Possible Motivation A convincing account of what may have motivated this project	15	
Sources Reliable sources and a clear distinction between documented facts and the presenter's interpretation	10	
Overall effectiveness of slide text/visuals Good balance of text and figures	10	
Overall effectiveness of the presentation Good oral skills, ability to answer follow-on questions, good leading of the class discussions	15	
Time Effective usage of time (~14 minutes long)	5	
Preparation Discussing your slides with the instructor 1-2 days before the class and handing in the presentation a night before	10	
	TOTAL
